Ration The bulls are on a TMR ration of ground hay, corn silage, corn, protein and mineral supplement. Ration formulated by Cattlecents Consulting, DeWayne Siebrasse, Aberdeen, SD.

Feeding Arrangement The bulls may be kept, at the ranch, after April 1, 2016, at the buyer's risk for \$2.00/day.

Additional Performance Information Adj. 365, ADG, and scrotal measurements will be provided sale day. Ultrasound information available sale day.

Guarantee Bulls will be guaranteed to your satisfaction and semen tested before delivery. If there is a problem, we will provide a replacement to use and credit at next year's sale.

Insurance Insurance will be available at a reasonable rate for both life insurance and loss of use coverage from Martin-Trudeau Insurance on sale day.

Trucking A \$100 discount per bull will be given if you take your bull home on sale day. Bulls not taken home on sale day will be trucked back to the ranch for later delivery.

Health Bulls are on a complete health program and have been vaccinated and poured for everything under the sun.

Sale Terms Cash or check payable sale day unless credit arrangements are made with Robert Birklid before the sale.

Additional information, ultrasound & performance data can be found on the website.

www.rlazybranch.com

See the inside back cover for details on DVAuction.

Please bring this catalog with you on sale day!

Welcome,

Cattlemen, welcome to our annual production sale. Looking back over the last year, it has been a real roller coaster ride from a production and marketing standpoint. Hind sight is 20/20 as they say, but I don't think any of us could have predicted all the ups and downs we have seen. I don't know about you, but I am still scratching my head and wondering what happened! Looking ahead, the future is still a bit blurry, but being ranchers and farmers, we will continue on and make the best of what comes.

In challenging markets, putting more pounds on the truck is one of the best ways to insulate your operation from the fluctuations of a fickle market. Charolais bulls will help you do just that. The growth and conversion rate will really add value to your calf crop. The bulls we are offering this year were carefully selected as the best 50 bulls from a field of 126. These are some of the best bulls we have ever raised, and I am proud to offer them to you.

On a brighter note, feed is plentiful and cheap, so take advantage of improved genetics to increase the value of your calves next year!

Sincerely,

Robert Birklid

TERMINAL SIRE INDEX (TSI)

The AICA Terminal Sire Index (TSI) is a formal method of combining Expected Progeny Differences (BWT, WWT, YWT, REA, HCW, MARB and FAT) – into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

The TSI represents a dollar index per terminal progeny produced for a bull in the AICA database, ranking them for profit potential. This dollar index is to be interpreted much like single trait EPD. For example, if Sire A's index is \$191.66 and Sire B's index is \$200.00, then we would expect Sire B's offspring to average \$8.34 more net return (\$200.00 minus \$191.66) than Sire A's offspring.

2016 CHAROLAIS BREED AVERAGE

This bull is consigned by Jena Smith. His mother is an easy keeping, heavy milking Long Distance daughter. Jena showed him at the county fair last summer to the title of Res. Grand Champion Registered bull. Great job! He was raised without a creep feeder and has that "calving ease" look to him with a lot of natural thickness. Be sure and ask Jena about him. She will be on hand sale day to represent him.

Lot 108C and Jena Smith at the Ransom County Fair

right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.
