33 Years

RAISING CHAROLAIS CATTLE

FOR CALVING EASE, PERFORMANCE & FEED EFFICACY

ANNUAL PRODUCTION SALE
FRIDAY, FEBRUARY 16, 2024
1 PM CT || HUB CITY LIVESTOCK, ABERDEEN, SD

68 YEARLING
CHAROLAIS BULLS SELL
SATISFACTION GUARANTEED

Welcome...

It seems amazing to me that this is the 33rd time I have sat down to write this Welcome Letter. It has been a lifetime labor of love to produce bulls for you that are proven quality, longevity and performance oriented. I take pride in my herd and truly appreciate all of my customers that trust me to put pounds on their calves and help improve their bottom line.

There have been many changes and challenges in the beef industry since we started. Charolais's were a relatively new breed in the USA but have proven themselves to be a valuable addition to the beef industry as a whole. We thank you, our customers, for allowing us to be part of your ranching experience over the years. We look forward to continuing to do so in the future.

I hope you find a valuable addition to your herd sires in this year's offering. We strive to bring you a wide selection of bulls – from "sleep all night" heifer bulls to high performance bulls to use with your established herd. We welcome you at the ranch anytime to see the bulls or just say "Hi". Check out the video's on DV Auction when it is convenient for you or call with any questions or advice on which bull would best meet your needs.

May you have your best year yet coming up. Easy calving, plentiful grass, strong markets and high profits. As always, a bad day ranching beats a good day in an office.

Sincerely,

Robert and Vickie Birkliid

TERMINAL SIRE INDEX (TSI)

The AICA Terminal Sire Index (TSI) is a formal method of combining Expected Progeny Differences (BWT, WWT, YWT, REA, HCW, MARB and FAT) – into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

The TSI represents a dollar index per terminal progeny produced for a bull in the AICA database, ranking them for profit potential. This dollar index is to be interpreted much like single trait EPD. For example, if Sire A's index is \$191.66 and Sire B's index is \$200.00, then we would expect Sire B's offspring to average \$8.34 more net return (\$200.00 minus \$191.66) than Sire A's offspring.

Ration	A TMR diet of corn silage, ground hay, modified distillers and cracked corn is feed after weaning at a rate of 50 MgCal of energy and 13.5 % protein plus Hubbard new Blueprint mineral supplement. Formulated to gain 3.5 # per day and build a breeding animal that will last for years.
Feeding Arrangement	The bulls may be kept, at the ranch, after April 1, 2023, at the buyer's risk for \$2.00/day.
Additional Performance Information	Adj. 365, ADG, and scrotal measurements will be provided sale day. Ultrasound information available sale day.
Guarantee	Bulls will be guaranteed to your satisfaction and semen tested before delivery. If there is a problem, we will provide a replacement to use and credit at next year's sale.
Insurance	Insurance will be available at a reasonable rate for both life insurance & loss of use coverage from Martin-Trudeau Insurance on sale day.
Trucking	A \$100 discount per bull will be given if you take your bull home on sale day. Bulls not taken home on sale day will be trucked back to the ranch for later delivery.
Health	The cattle are on a full vaccination program and interstate and Canadian health papers will be provided at no cost.
Sale Terms	Cash or check payable sale day unless credit arrangements are made with Robert Birkliid before the sale.

Additional information, ultrasound & performance data can be found on the website.

This bull is a bigger framed performance sire. We purchased him at the Lindskov Thiel Sale for his proven carcass and maternal valued pedigree. He calves very well and the offspring are very vigorous at birth. They have a generous hair coat and a darker pigment that all combines with their feed conversion to make a very useful sire line. Great foot and leg structure ensures he will get his job done and stay sound for years.

He was the high selling bull in our 2018 sale, to the Doll Ranch, and we have since bought possession back. He sires full bodied cattle that are born easy and do well in the feedlot. He is the sire of several frontend bulls in this sale, continuing his legacy. The Fargo influence is strong.

Keys Maximizer sires good headed, bold sprung, long bodied cattle. We kept most of the heifer calves he sired for replacements. His EPDs read very well and high marbling to boot.

View the Auction Live! Bid Online... you're ringside right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.DVAuction.com under the "Register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction — a DV representative will notify you once you have been approved.
3. Tune in for the sale to make your purchases!

High Speed internet is required for successful bidding—be sure to check the log-time monitor in the top left corner to ensure real-time broadcasts.

Proxy-bidding — if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Use a Registered Charolais Bull?

If your goal, as a beef producer, is to market a calf with wide market acceptance, why not use a registered Charolais bull? In a recent analysis of seven years of extensive Superior Livestock video auction marketing data including more than two million head of cattle, Charolais-sired steer calves outsold all other English-Continental breed cross steers by \$3.73 per hundred weight.¹

Use genetic verification through CharAdvantage to earn more premiums.

Why?

- Market demand
- Predictability
- Increased weaning & yearling weights
- Easy calving
- More live calves
- Adaptability
- Value of Charolais-cross females

¹Esther Dorice McCabe, 2018. Kansas State University, Dept. of Animal Sciences and Industry, College of Agriculture. "Breed trends and effect of breed on sale price of lots of beef calves marketed via video auction".
